To get the best results perhaps it is now too late to make a beginning, its the possibility of providing an interpretation of the mintepality, deciding upon a certain area which would be used for business buildings, another for rest dence area, a third for school grounds and recreation grounds. The plan is to be looked into, but for the surdence area, a third for school grounds and recreation of the building on the various lots and their alignment with the street, the distance from the street and possibly the character or quality of the buildings themselves. There is economy in such a plan, patieularly in insurance and the prevention of fire hazard. After such an arrangement has been adopted, the laying out of the streets, the planning for boulevards, for tree planting and for general beautifying and improvement could be followed consistently. Space for a grass plot and flowers in front of the homes would be provided tor. All of this work should be done under the plans and possibly the supervision of an expert and I am rather of the opinion that the expert's assistance and advice should be supplied to the urban municipalities throughout the Province by a central authority. This expert should be available on the request of the municipalities or when required by a ground

of people applying to organize a village and begin its work of government. Not only should this assistance of the oxport be available at the inception of a plan, but from time to time as it is being carried out by the local municipal government. With the assistance of the oxport and the cooperation of the village or town with him. I am sure that we would find springing up in this Proluce villages and towns that would be a pride to the people.

A MISSTATEMENT

Dear Sir.

In your issue of February 24th, the following appeared under the caption W.C.T.U.

"Mr. Dinning says every day he enforces this Alberta Act he becomes more and more prohibitionist and that the temperance people can help him by tightening up the law?

Thinking that it was very unlikely that The Liquor Commissioner ever made such a statement I called his attention to it. I have now before me Mr. Dinning's reply, in which the following occurs: United States.

It is a pity that the W.C.T.U. concities to stullify their valuable educational efforts on behalf of temperance, by endeavoring to raise the dead Problibtion issue by false or misleading statements, some of which I have called attention to, and others I have allowed to go unchallenged.

The Hon. George Hoadley, Minister of Health, has carried his Sterilization Bill. In Sick of all the Jokes about this bill there is a real need for some governmental action to stem the tide of rapidly increasing numbers of mentally defective and insane people which Alberta and every other Province have to support. There is one phase of the bill which needs our serious consideration. What effect will it have on the spread of veneral disease which we are fighting to Keep under control? Sterilize a mentally

Sexual passions are not removed by sterilization. To meet the present condition, which the Minister of Health complains of, I wender it his bill goes far enough. Descaualization would be a romedy which would surely prevent mentally defective and insane people from propegating their kind, and would not lead itself to the spread of vonoreal disease. I have often thought that it should be applied to habitual venereal disease. I have often though that it should be applied to habitue eriminals. All the fathers and mother of the people in our insane asylum and houses for mentally defectives ar and houses for mentally defectives are not insane or mentally defective thomselves. Such people will continue to be born into the world from apparently healthy people. Would it not be well to prevent this new crop from following in the footsteps of those we now propose to operate on and try to cut off or dam the perpetual stream at its fountain head. Would it not be wise to prevent the marriage of mentally defective people? Would it not be well to have a health certificate as a first step towards a marriage license?

WITH ROADS IN WINTER
The problem of keeping open winter
roads leading into the town of Camrose appears to have been solved. The
roport of E. V. Kerr, chalirman of the
Good Roads committee of the Camrose
board of trade for the past year, presented at the annual meting of that
roganization on Tuesday night, February 21st, outlined the method by
which success in maintaining winter
roads had been attained.
Business mea and farmers both

Business men and farmers both agree as to the advisability of keeping roads had been attained.

Business men and farmers both agree as to the advisability of keeping roads open for automobile traffic during the period when the snow is upon the ground. But conditions are such that the undertaking presents several difficulties. Mechanical snow-removal equipment of different types is being offered but these were found to be either inadequate to do the work or too costly for the average municipality. After consideration had been given to several types of snow plows, it was decleded to have a plow built locally according to determined speciation. The plow so built had a 16-foot blade and was propelled by a 15-30 tractor. The total cost of the plow was less than \$150.00. ss than \$150.00

## **40 Horse Power Engine**

At 2200 revolutions per minute the New Ford Four-cylinder Engine develops 40 horse power.

This r.p.m. or revolution speed is low for such power and shows that the engine is unusually efficient.

It also means long life, for the lower the speed of the engine, the less the wear on its parts.

The bore is  $3\frac{7}{8}$  inches and the stroke is  $4\frac{1}{4}$  inches.

PLEASING CONCERT

The concert given on Friday evening
by the Coal Lake Boys' Band and their
friends was a treat that a fair sized
audience eloyed immonsoly. A busy
week of events was accountable for
not having a crowded house, for on
previous occasions the band has always attracted capacity audiences.
Those who did not attend, certainly
missed a most enjoyable evening.
The band rendered all their selections in good form and showed marked
signs of improvement through practice and the efficient training of their
leader, Mr. Carl Jevne.
The hadies' chorus "Swedish Patriotte Song," was very pleasingly rendered by six ladies.
The song by Miss Anderson "Lay my
head beneath a rose," was sung in a
clear, free style and was much appreciated.
Mrs. H. Lee egtertained her honers.

clated.

Mrs. H. Lee entertained her hearer in a very pleasing manner in her recitation entitled "Farmer."

Mr. Sverne Gronil sang with a very pleasing voice "Norway, my Norway."

Mrs. Alfred Jevne played the accom-

pleasing voice "Norway," my Norway."
Mrs. Alfred Jevne played the accompaniments during the evening in her usual good style.
Mr. J. R. K. Graham acted as chairman for the evening.
The concert was brought to a close by the band playing "O Canada."
The following is the program:
The following is the program:
Warch "The Scoutmaster"; coverure "The Gypsy Festival"; Ladies' chorus "Swedish Patriotic Song"; march "Dear Old Glory"; vocal solo "Lay my Head Beneath a Rose," Miss Anderson; march "White Ribbou Cadets"; recitation, Mrs. H. Lee; march "Figleility"; band selection "Love and Roses"; vocal solo "Noway, my Norway," Mr. Sverre Gronli; march "Triumphant Banner," of Canada."
A dance was held after the concert, when a good crowd remained to trip the light fantastic to the music of Jevne's five-piece orchestra.

WHEAT POOL LOCAL IS ORGANIZE At a meeting of Wheat Pool members, whose delivering point is Millet, held in Pinyon's hall, Saturday, March 19th, a Wheat Pool Local was organized and the following officers were elected: H. G. Young, chairman; T. H. Howes, secretary; Geo D. Ferguson, T. T. Jevne, C. Moen, J. G. Anderson, Chas. Dowdell, directors. Bylaws were adopted which provide for four regular meetings a year, on the fourth Saturday of January, April, July and October. Special meetings to be called whenever necessary. The local membership fee to be 56c a year. The object of the organization being to co-operate with the central office of the Pool and in every way possible to further the interests of the local members. The immediate object is to get a Pool elevator at Millet, and the local have been assured by the Pool secretary Mr. R. O. German, that the chances of getting a Pool elevator at Millet are very good. It depends largely on the number of wheat producers signed up in the next few weeks. A drive for a larger sign-up will be the first effort of the new local.
